Experience

Sinclair Digital — Seattle, WA
Lead Product Designer — 2025—2026

Led product discovery and design, turning stakeholder insights, user research, and testing into clearer product direction, better roadmap decisions, and more intuitive web and mobile experiences

Drove design direction for a B2B enterprise marketing platform, modernizing workflows across multiple products for audience targeting, campaign creation, and performance analytics to reduce complexity, improve usability, and increase sales conversions

Established AI-assisted product design practices and scalable design system patterns, collaborating closely with product, research, and engineering teams to improve consistency, influence product direction, and support faster product development lifecycles

Presented design prototypes to senior leadership and stakeholders to get buy-in before handoff

Conceptualized and designed adjacent marketing materials through a variety of mediums

ATM Design — Remote
Product Design Consultant — 2014—2025

Led product design for startups, founders, and small businesses, transforming early-stage ideas into validated concepts, MVPs, and scalable digital products across SaaS, marketplaces, e-commerce, sports, and consumer technology for web and mobile

Partnered directly with founders, executives, and cross-functional teams from discovery through developer handoff, using research, prototyping, and usability testing to reduce uncertainty and ship products from concept to launch

TennisPal — Remote
Product Design Consultant — 2023—2025

Partnered with the CEO and TennisPal's product team to optimize core mobile user journeys and launch new features such as "Match Scheduling", increasing daily active users by 22% and improving subscriber growth by 18%

Combined usage data and user interviews to uncover retention opportunities and design targeted improvements to support engagement, paid subscriptions, and revenue growth

EVRYBDY Design Group — Remote
UI/UX Design Consultant — 2020—2023

Delivered end-to-end UI/UX design across select client projects, translating complex requirements into intuitive digital experiences aligned with user needs and business goals

Partnered with cross-functional teams to optimize user flows, prototype concepts, and deliver polished, developer-ready designs backed by user research and testing

Pogoseat — Venice, CA
Senior Product Designer — 2014

Led the end-to-end design of Pogoseat's mobile ticketing and live-event commerce platform, simplifying time-sensitive purchase and seat-upgrade journeys to reduce friction, improve conversion rates, and increase successful upgrades as the startup prepared for Series B round of investment

StackSocial — Venice, CA
Senior UI/UX Designer — 2013—2014

Joined as StackSocial's first in-house designer and was promoted into a senior role, leading a company-wide rebrand, designing its first iOS and Android apps, and establishing scalable UI patterns as the startup grew to millions of users and was eventually acquired

UI/UX Designer — 2012—2013
