Senior Product Designer

Email: hi@alexmcdonald.site | Portfolio: alexmcdonald.site | Linkedin: linkedin.com/in/alextmcdonald | Seattle, WA

Senior Product Designer specializing in complex B2B platforms and consumer mobile apps for enterprise companies and early stage startups. 15+ years of experience turning ambitious ideas and complex workflows into intuitive digital experiences with high craft. Proven ability to tackle strategic design challenges, collaborate across disciplines, establish scalable design systems, and lead products from initial concept through launch.

EXPERIENCE

Blue State | Senior User Experience Designer | Contract *Nov 2026 – Present*

- Leading UX strategy and design for mission-driven organizations by translating complex requirements into intuitive digital experiences through research, prototyping, and cross-functional collaboration

Sinclair Digital | Lead Product Designer | Seattle, WA *Jul 2025 – Aug 2026*

- Led product discovery and end-to-end product design, turning stakeholder insights, user research, and testing into clearer product direction, better roadmap decisions, and more intuitive web and mobile experiences
- Drove design direction for Drive Auto, a $50M+ enterprise marketing platform, modernizing workflows across multiple products for audience targeting, campaign creation, and performance analytics to reduce complexity, improve usability, and increase sales conversions *(Under NDA)*
- Established AI-assisted product design practices and a scalable design system foundation, collaborating closely with product, research, and engineering teams to solve complex product problems, accelerate prototyping, and support faster product development lifecycles

TennisPal | Product Design Consultant | Remote *Mar 2023 – Jul 2025*

- Long term consulting partnership with TennisPal, collaborating with the CEO, product, and engineering teams to optimize core mobile user journeys and launch new features such as “Match Scheduling”, increasing daily active users by 22% and improving subscriber growth by 18%
- Combined usage data and user interviews to uncover retention opportunities and design targeted improvements to support engagement, paid subscriptions, and revenue growth as the platform tried to scale

EVRYBDY Design Group | UI/UX Design Consultant | Remote *Dec 2020 – Mar 2023*

- Delivered end-to-end UI/UX design across select client projects, translating complex requirements into intuitive digital experiences aligned with user needs and business goals
- Partnered with cross-functional teams to translate research and user needs into intuitive workflows, validate concepts through prototyping and testing, and deliver production-ready designs from concept through development

ATM Design | Product Design Consultant | Remote *Sep 2015 – Jun 2025*

- Led product design for startups, founders, and small businesses, transforming early-stage ideas into validated MVPs and scalable digital products across SaaS, marketplaces, e-commerce, sports, and consumer technology for web and mobile
- Partnered directly with founders, executives, and product teams from discovery through developer handoff, while owning using research, prototyping, and usability testing to reduce uncertainty and ship products from concept to launch

Pogoseat | Senior Product Designer | Venice, CA *Feb 2014 – Sep 2015*

- Led the end-to-end design of Pogoseat's mobile ticketing and live-event commerce platform, simplifying time-sensitive purchase and seat-upgrade journeys to reduce friction, improve conversion rates, and increase successful upgrades as the startup prepared for Series B

StackSocial | UI/UX Designer → Senior UI/UX Designer | Venice, CA *Dec 2012 – Feb 2014*

- Joined as StackSocial's first in-house designer and was promoted into a senior role, leading a company-wide rebrand, designing its first iOS and Android apps, and establishing scalable UI patterns as the startup grew to millions of users and was eventually acquired by TPG in 2021

Internet Brands | Web/Graphic Designer | El Segundo, CA *Oct 2010 – Dec 2012*

- Designed and optimized high-traffic B2C web experiences in collaboration with PM and engineering across Internet Brands' massive portfolio, improving usability, engagement, and conversion through iterative design and testing
